9:00 – 12:00

Rising 6th – Rising 9th

Location: Cleghorn Hall Room 135

\$100/child

Teacher – Linda McDaniel

lmcdaniel@wesleyanschool.org

This camp consists of two components. We will do a little of each part of the camp every day. For one part of the camp students will build and program Lego Mindstorms robots. Working in pairs, they will compete against other pairs of students to see who can build the fastest and the strongest robot. For the second part of the camp, students will work in groups creating a music video of themselves and editing it with Adobe Premiere. The music videos will be shown on WWTV in the fall.
