**\$100.00**

Have you always wanted to know how to use that amazing camera that you bought? Do you have a knack for photography, but want to know how to make your photos even better? If so, then this class is for you! Digital Photography fundamentals and Photoshop basics will be taught.

-In Digital Photography, we will cover basic camera use including all of the manual settings, uploading and saving images, and enhancing your photography by using composition and design techniques.

-In Photoshop, this course will cover the basics of Photoshop in order to better enhance photographs as well as to manipulate and combine images. Photoshop has many amazing features and abilities that will make any photo or image better. It also requires that you are comfortable with basic computer and digital technology usage.

Owning a digital SLR camera is recommended but not required. You will be allowed to check out a camera if you need to. Cost includes materials needed to print your best photographs.
