

## ***FROM THE HEAD COACH***

To the Wesleyan Football Family,

Welcome to the Wesleyan Football Online Parent Handbook. Contained on this team page is all the pertinent information that should be required by our families both in-season and out. It is our goal that all who visit this site will not only find useful information about schedules, dates, and times but will also gain a clearer understanding of what Wesleyan football is all about. I would specifically like to guide each visitor to read and understand the page regarding Wesleyan football's Mission and Beliefs. During the season, this site will contain current rosters, stats, scores, recruiting news, and travel itineraries plus specialty links to game photos where orders can be placed by parents. Out of season, requirements and expectations for off-season workouts will be uploaded along with season-ending statistics and dates for skill camps and spring practice.

There are many advantages to posting this information online versus sending a hard copy to every household. Primarily, it allows us to quickly and easily change and update information which makes the handbook a more useful tool for everyone. My hope is that this handbook will aid our families by providing constant and accurate communication. Please print hard copies of any information you need and return to the site often to check for changes. Each fall our team mothers will build email distribution lists for each team from the 7<sup>th</sup> grade to the varsity. Messages will be sent out weekly with important information and to notify each household when updates have been made to the online handbook. Thank you for your constant support of your sons and Wesleyan football.

Go Wolves!
