

Computer Camp

July 19th – 23rd

9:00 – 12:00

Rising 6th – Rising 9th

Teacher – Linda McDaniel

\$100/child

lmcdaniel@wesleyanschool.org

This camp consists of two components. We will do a little of each part of the camp every day. For one part of the camp students will build and program Lego Mindstorms robots. Working in pairs, they will compete against other pairs of students to see who can build the fastest and the strongest robot. For the second part of the camp, students will create a video game using the Games Factory. This is a fun camp for kids who love computers. A snack will be provided each day.
